

Are You an Adult Living with Chiari Malformation Type I?

Department of Psychology | The University of Akron

ABOUT THE STUDY

We are conducting research to better understand the cerebellum in adults with CM-I. Participants will complete cognitive assessments. This study will help us understand how CM-I affects the cerebellum.

WHO CAN PARTICIPATE? **Adults with CM-I (18–35, and 50+)**

- ✓ Diagnosed with CM-I by a physician
- ✓ No history of brain injury or stroke, or neurological conditions affecting thinking
- ✓ Ages 18–35, and 50+
- ✓ Read, speak, & understand English
- ✓ No opioid use in the past month

WHAT'S INVOLVED?

In-Person Visit

One lab visit at the University of Akron campus.

~ 1 Hour

Cognitive tasks

Compensated

You'll be compensated \$30 for your time.
